ORLANDO, Fla., Nov. 13, 2025 (GLOBE NEWSWIRE) -- Innventure, Inc. (NASDAQ: INV) ("Innventure"), an industrial growth conglomerate, today announced financial results for the quarter ended September 30, 2025.

"Innventure's momentum continued in the third quarter, driven by meaningful execution across our operating companies. Non-GAAP Financial Measures

We use certain financial measures that are not calculated in accordance with generally accepted accounting principles in the U.S. (GAAP) to supplement our consolidated financial statements. These non-GAAP financial measures provide additional information to investors to facilitate comparisons of past and present operating results, identify trends in our underlying operating performance, and offer greater transparency on how we evaluate our business activities. These measures are integral to our processes for budgeting, managing operations, making strategic decisions, and evaluating our performance.

Our primary non-GAAP financial measures are EBITDA and Adjusted EBITDA. We define EBITDA as net income before interest, income taxes, and depreciation and amortization. Adjusted EBITDA is defined as EBITDA further adjusted to exclude certain non-cash items, non-recurring expenses, and other items that are not indicative of our core operating activities. These may include stock-based compensation, acquisition costs, and other financial items. We believe Adjusted EBITDA is valuable for investors and analysts as it provides additional insight into our operational performance, excluding the impacts of certain financing, investing, and other non-operational activities. This measure helps in comparing our current operating results with prior periods and with those of other companies in our industry. It is also used internally for allocating resources efficiently, assessing the economic outcomes of acquisitions and strategic decisions, and evaluating the performance of our management team.

There are limitations to Adjusted EBITDA, including its exclusion of cash expenditures, future requirements for capital expenditures and contractual commitments, and changes in or cash requirements for working capital needs. Adjusted EBITDA also omits significant interest expenses and related cash requirements for interest and payments. While depreciation and amortization are non-cash charges, the associated assets will often need to be replaced in the future, and Adjusted EBITDA does not reflect the cash required for such replacements. Additionally, Adjusted EBITDA does not account for income or other taxes or necessary cash tax payments.

Investors should use caution when comparing our non-GAAP measure to similar metrics used by other companies, as definitions can vary. Adjusted EBITDA should not be considered in isolation or as a substitute for GAAP financial measures.

In presenting Adjusted EBITDA, we aim to provide investors with an additional tool for assessing the operational performance of our business. It serves as a useful complement to our GAAP results, offering a more comprehensive understanding of our financial health and operational efficiencies.
