

AeroFlexx Earns AA+ Rating in Unannounced BRCGS Audit

09.08.26

WEST CHESTER, Ohio, Sept. 08, 2026 (GLOBE NEWSWIRE) -- [AeroFlexx](#), an industry leader in sustainable liquid packaging, has earned the AA+ rating from the Brand Reputation through Compliance Global Standard (BRCGS) at the West Chester manufacturing site. The 2026 result marks the facility's sixth consecutive annual audit at the AA level and the second time it has achieved AA+ following its first in 2023, a distinction that can only be achieved in an unannounced audit.

The BRCGS certification is recognized worldwide by food manufacturers, retailers, and brand owners as an established benchmark for packaging safety and quality. The certification process evaluates performance in critical areas such as quality management, risk control, and traceability, ensuring products meet the highest standards for the packaging industry.

"Earning AA+ through an unannounced audit reflects the discipline of our team and the consistency of our operating standards," said Boris Gavric, Chief Operating Officer of AeroFlexx. "These standards guide every aspect of our operations and enable us to deliver the quality, safety, and reliability our brand partners expect."

For brand partners, earning six consecutive years of the highest possible BRCGS rating demonstrates that AeroFlexx maintains consistent, repeatable production controls capable of supporting programs from initial launch through broader commercialization. This sustained operating discipline reinforces the trust required to build loyal, long-lasting brand partnerships, as the packaging platform is adopted by leading CPG and multinational companies across all categories of the addressable market.
