CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Unless the context requires otherwise, references in this Quarterly Report on Form 10-Q (“Form 10-Q”) to “Innventure,” the “Company,” “we,” “our” or “us” refer to Innventure, Inc. and its consolidated subsidiaries.

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), including statements about the Company’s business model, the financial condition, results of operations, earnings outlook and the prospects for AeroFlexx, LLC (“AeroFlexx” or “AFX”), Accelsius Holdings LLC (“Accelsius” or “ACC”) and Refinity Olefins, LLC (“Refinity” and, together with AeroFlexx and Accelsius, the “Innventure Companies” and, together with those subsidiary companies that Innventure may found, fund, and operate going forward, the “Operating Companies”). In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. Forward-looking statements generally relate to future events or the Company’s future financial or operating performance and may refer to projections and forecasts. Forward-looking statements are often identified by future or conditional words such as “plan,” “believe,” “expect,” “anticipate,” “intend,” “outlook,” “estimate,” “forecast,” “project,” “continue,” “could,” “may,” “might,” “possible,” “will,” “potential,” “predict,” “should,” “would” and other similar words and expressions (or the negative versions of such words or expressions), but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements are based on the current expectations of the Company’s management and are inherently subject to uncertainties and changes in circumstances and their potential effects and speak only as of the date of this Form 10-Q. There can be no assurance that future developments will be those that have been anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond the control of the parties) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. The risks and uncertainties include, but are not limited to, those factors discussed and identified in the section of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2024 (the “2024 Annual Report”) entitled “Risk Factors,” those discussed and identified in other public filings made with the Securities and Exchange Commission (the “SEC”) by the Company and the following:

- expectations regarding Innventure’s and the Innventure Companies’ (as defined below) strategies and ability to achieve future financial performance, including their respective future business plans, expansion and acquisition plans or objectives, prospective performance and opportunities and competitors, revenues, products and services, pricing, operating expenses, market trends, liquidity, cash flows and uses of cash, capital expenditures, and Innventure’s ability to invest in growth initiatives;
- the implementation, market acceptance and success of Innventure’s and the Innventure Companies’ business models and growth strategies;
- sustained unfavorable economic or other conditions which could cause the need for Innventure to evaluate and potentially record additional impairment charges for all, or a portion of, its goodwill and other intangible assets;
- Innventure’s future capital requirements and sources and uses of cash, including its ability to obtain funding for its operations and future growth and to continue as a going concern;
- Innventure’s ability to meet the various conditions imposed by, and to satisfy its obligations to, the WTI Lenders (as defined below), under the WTI Facility (as defined below);
- Innventure’s ability to meet the various conditions and satisfy the various limitations under the Standby Equity Purchase Agreement (the “SEPA”) and securities purchase agreement (the “Securities Purchase Agreement”), each with YA II PN, Ltd. (“Yorkville”), including exchange caps, issuances and subscriptions based on trading volumes, to continue to access the funds available under the SEPA or the Securities Purchase Agreement and related Convertible Debentures (as defined below) due to certain conditions, restrictions and limitations set forth therein;

- certain restrictions and limitations set forth in Innventure’s debt instruments, which may impair Innventure’s financial and operating flexibility;
- Innventure’s and the Innventure Companies’ ability to generate liquidity and maintain sufficient capital to operate as anticipated;
- the risk that the technology solutions that Innventure and the Innventure Companies license or acquire from third parties or develop internally may not function as anticipated or provide the benefits anticipated;
- developments and projections relating to Innventure’s and the Innventure Companies’ competitors and industry;
- the ability of Innventure and the Innventure Companies to scale the operations of their respective businesses;
- the ability of Innventure and the Innventure Companies to establish substantial commercial sales of their products;
- the ability of Innventure and the Innventure Companies to compete against companies with greater capital and other resources or superior technology or products;
- Innventure and the Innventure Companies’ ability to meet, and to continue to meet, applicable regulatory requirements for the use of their products and the numerous regulatory requirements generally applicable to their respective businesses;
- the outcome of any legal proceedings against Innventure or the Innventure Companies;
- Innventure’s ability to find future opportunities to license or acquire breakthrough technology solutions from multinational corporations (“MNCs”) or other third parties (collectively, “Technology Solutions Providers”) and to satisfy the requirements imposed by or to avoid disagreements with its current and future Technology Solutions Providers;
- the risk that the launch of new companies distracts Innventure’s management from its subsidiaries and their respective operations;
- the risk that Innventure may be deemed an investment company under the Investment Company Act of 1940 (the “Investment Company Act”), which would impose burdensome compliance requirements and restrictions on its activities;
- Innventure’s ability to sufficiently protect the intellectual property (“IP”) rights of itself and its Operating Companies, and to avoid or resolve in a timely and cost-effective manner any disputes that may arise relating to its use of the IP of third parties;
- the risk of a cyber-attack or a failure of Innventure’s information technology and data security infrastructure;
- the ability to recognize the anticipated benefits of the Business Combination;
- geopolitical risk and changes in applicable laws or regulations, including with respect to foreign trade policy and tariffs;
- potential adverse effects of other economic, business, and/or competitive factors;
- operational risks related to Innventure and the Innventure Companies, which have limited or no operating history; and
- the limited liquidity and trading of Innventure’s securities.

Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. All forward-looking statements in this Form 10-Q are made as of the date hereof, based on information available to Innventure as of the date hereof, and Innventure assumes no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required under applicable law.

Note 1. Nature of Business

Unless the context otherwise requires, references herein to "Innventure", "we", "us", "our" and "the Company" refer to the business and operations of Innventure LLC and its consolidated subsidiaries (the "Predecessor") for all periods prior to the Closing (as defined below) and to the business and operations of Innventure, Inc., and its consolidated subsidiaries (the "Successor") for all periods after Closing. All balance sheet amounts presented are for Successor periods.

Innventure funds, funds, and operates companies with a focus on transformative, sustainable technology solutions that we acquire or license from technology innovators, which are typically MNCs. As owner-operators, our goal is to take what we believe to be breakthrough technologies from evaluation to scaled commercialization utilizing an approach designed to help mitigate risk in collaboration with the MNCs (our channel partner(s)), as we build disruptive companies that we believe have the potential to achieve a target enterprise value of at least \$1 billion. We define "disruptive" as innovations that, in our opinion, have the ability to significantly change the way businesses, industries, markets, and/or consumers operate. Innventure, Inc., is headquartered in Orlando, Florida.

Business Combination

As further discussed in our 2024 Annual Report, on October 2, 2024 (the "Closing Date" or "Closing"), Learn CW Investment Corporation ("Learn CW"), a Cayman Islands exempted company, and Innventure LLC, a Delaware limited liability company, consummated a business combination (the "Business Combination") pursuant to the terms of the Business Combination Agreement previously entered into on October 24, 2023. Following the Closing, both Learn CW and Innventure LLC became subsidiaries of Learn SPAC HoldCo, Inc. ("Holdco"), a Delaware corporation and direct, wholly-owned subsidiary of Learn CW prior to Closing. Holdco changed its name to "Innventure, Inc." and became a publicly traded company. Holdco was determined to be the accounting acquirer. Innventure, Inc., and its subsidiaries are the successor to Innventure LLC following the Business Combination.

The information provided in this Quarterly Report on Form 10-Q reflects two distinct periods, the period up to the Closing Date labeled as the Predecessor and the period including and after that date labeled as the Successor. The Business Combination was accounted for using the acquisition method of accounting and the Successor financial statements reflect a new basis of accounting that is based on the fair value of the net assets acquired. As a result of the application of the acquisition method of accounting as of the Closing Date, the accompanying condensed consolidated financial statements include a black line division which indicates that the Predecessor and Successor reporting entities shown are presented on a different basis and are therefore, not comparable.

These condensed consolidated financial statements are unaudited and should be read in conjunction with the Company's most recent annual audited consolidated financial statements and notes thereto. These condensed consolidated financial statements have been prepared in accordance with the instructions for the Securities and Exchange Commission's ("SEC's") Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to rules and regulations of the SEC, although the Company believes that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments, consisting only of normal recurring adjustments considered necessary for a fair presentation of results of operations and financial position, have been included.

We use the same accounting policies in preparing quarterly and annual financial statements.

During the three months ended March 31, 2025 (Successor), we identified an error and recorded an immaterial out of period adjustment of \$10,464 to correct an overstatement of Additional paid-in capital, an immaterial out of period adjustment of \$4,454 to correct understatement of Net loss attributable to Innventure, Inc. stockholders and

Innventure, Inc. and Subsidiaries

an immaterial out of period adjustment of \$14,918 to correct an understatement of Non-controlling interest. The impact of the adjustments are not material to the condensed consolidated financial statements for any interim or annual periods prior to March 31, 2025 nor the current financial period. The out of period adjustment to Additional paid-in capital is included in the Non-controlling interest issued and related transfers within the consolidated statements of changes in mezzanine and stockholders' equity (deficit) and the adjustment related to Net loss attributable to Innventure, Inc. within Comprehensive loss attributable to Non-redeemable non-controlling interest on the condensed consolidated statements of operations and comprehensive income (loss).

Reclassifications

Certain amounts reported previously have been reclassified to conform to the current year presentation with no effect on total stockholders' deficit, or net income as previously reported.

Going Concern

As of March 31, 2025, the Company had cash balance of \$1,375, accumulated deficit of \$221,285 and a working capital deficit of \$37,039. During the three months ended March 31, 2025 (Successor), the Company incurred a net loss of \$253,674. We have experienced recurring losses from operations and negative cash flows from operating activities. In addition, we continue to have an ongoing need to raise significant additional cash from outside sources to sustain our operations and fund our growth plans.

In connection with our assessment of going concern considerations in accordance with FASB's ASU 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that these conditions raise substantial doubt about our ability to continue as a going concern within one year after the date of the condensed consolidated financial statements included in Item 1. of this Form 10-Q. If we are unable to obtain adequate capital from public or private equity or debt financing (including the SEPA), or otherwise generate sufficient revenues from our Operating Companies to support our cost structure within the normal operating cycle of a twelve (12) month period, we may have to implement cost reduction measures or adjust the timing or scope of certain operations at Innventure or certain Innventure Companies, in part or in full, to help manage liquidity. If we raise additional funds through the issuance of additional debt or equity securities, it could result in substantial dilution to our existing stockholders and increased fixed payment obligations, and these securities may have rights senior to those of our Common Stock. See "Item 1A. Risk Factors – Risks Related to Innventure's Business – There is uncertainty regarding Innventure's ability to maintain liquidity sufficient to operate its business effectively, which raises substantial doubt about its ability to continue as a going concern." in our 2024 Annual Report.

We can make no assurances that required financings will be available for the amounts needed, or on terms commercially acceptable to us, if at all. If subsequent capital raises or revenues from operations at the Innventure Companies are insufficient to bridge financial and liquidity shortfalls (or both), there would likely be a material adverse effect on our business and financial condition that would materially adversely affect our ability to continue as a going concern.

The accompanying condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern within one year after the date of the accompanying condensed consolidated financial statements are issued; however, the above conditions raise substantial doubt about the Company's ability to do so. The condensed consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern. There can be no assurance that management will be successful in implementing its business plan or that the successful implementation of such business plan will improve our operating results.

Recently Adopted Accounting Pronouncements

In November 2023, the Financial Accounting Standard Board's ("FASB") issued Accounting Standards Update ("ASU") 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU

Innventure, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited) (in thousands, except share or per share data)

2023-07"), which enhances prior reportable segment disclosure requirements in part by requiring entities to disclose significant expenses related to their reportable segments. The amendments in ASU 2023-07 are effective on a retrospective basis for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The Company has made the required disclosures related to this ASU within Note 17. Business Segment Data.

Recently Issued But Not Yet Adopted Accounting Standards

In October 2023, the FASB issued ASU 2023-06, *Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative* ("ASU 2023-06"). This standard modifies the disclosure or presentation requirements of a variety of topics and aligns requirements with the SEC's existing disclosure requirements. ASU 2023-06 is effective on the date each amendment is removed from Regulation S-X or Regulation S-K with early adoption prohibited. The Company will monitor the removal of various requirements from the current regulations in order to determine when to adopt the related amendments but does not anticipate the adoption of the new guidance will have a material impact on the Company's condensed consolidated financial statements. The Company will continue to evaluate the impact of this guidance on its condensed consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"), which requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid to enhance the transparency and decision usefulness of income tax disclosures. The amendments in this ASU are effective for annual periods beginning after December 15, 2024 on a prospective basis. The Company is currently evaluating the impact that the adoption of this accounting standard will have on its condensed consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* ("ASU 2024-03"). In January 2025, the FASB issued Clarifying the Effective Date ("ASU 2025-01") to add some clarity around the effective date of the guidance. ASU 2024-03 requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. The new standard is effective for fiscal years beginning after December 15, 2026, and for interim periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. The amendments may be applied either prospectively, to financial statements issued after the effective date, or retrospectively, to all prior periods presented. The Company is currently evaluating the impact that the adoption of this accounting standard will have on its condensed consolidated financial statements.

ESG Fund

The Innventus ESG Fund I, L.P. (the "ESG Fund") is an investment company that follows a specialized basis of accounting established by GAAP. The Company's general partnership interest in the ESG Fund is substantially illiquid. While the ESG Fund's holdings are accounted for at fair value, the equity-method investment in the ESG Fund is adjusted to reflect the fair value of the underlying investments of the ESG Fund as of March 31, 2025 and December 31, 2024. The fair value of the underlying investments in the ESG Fund is based on the Company's assessment, which takes into account expected cash flows, earnings multiples and/or comparisons to similar market

transactions, among other factors. Valuation adjustments reflecting consideration of credit quality, concentration risk, sales restrictions and other liquidity factors are integral to valuing these instruments.

AeroFlexx

The Company held a 38% and 34% equity method investment interest in AeroFlexx as of March 31, 2025 and December 31, 2024, respectively.

Investment in debt securities - Available for Sale ("AFS")

On July 1, 2024, the Company entered into a loan agreement with AeroFlexx under which the Company will lend up to \$10,000 to AeroFlexx.

The term loans and any unpaid accrued interest are required to be repaid by the maturity date, which is the earlier of (i) December 31, 2026 or (ii) the date of the sale, transfer or other disposition all of AeroFlexx's assets or AeroFlexx's stock. After any full or partial repayment of the term loans, AeroFlexx may borrow additional funds up to the \$10,000 limit until the maturity date. The loans bear interest at the applicable federal rate published by the Internal Revenue Service and is adjusted on a quarterly basis.

The Company has an option to convert the outstanding principal amount of the term loans and any unpaid accrued interest into shares or units in connection with the next issuance of equity securities by AeroFlexx, at a price equal to 100% of the price per share or unit and on the same terms and conditions as apply to such issuance.

During 2024, the Company lent AeroFlexx the entire \$10,000 principal balance under this agreement. As of January 1, 2025, AeroFlexx was unable to raise any additional equity financing, therefore the outstanding principal and unpaid accrued interest with an amount equal to the equity deficit of \$7,250 was automatically converted into Class D preferred units of AeroFlexx at the price of \$6.83 per share in accordance with the loan agreement. Upon conversion, a realized gain of \$1,507 was recognized for the three months ended March 31, 2025 (Successor) and is included in non-operating income in the condensed consolidated statements of operations and comprehensive income (loss).

During the three months ended March 31, 2025 (Successor), \$4,375 was reclassified from Due from related parties under the term loan and \$2,337 was drawn down by AeroFlexx under the term loan. The total balance drawn as of March 31, 2025 was \$9,629.

The Company accounted for the loans as an investment in debt securities and classified them as available for sale debt securities. Based on the AFS classification, the Company records this investment at fair value at each reporting date and as such recorded the changes in fair value of these loans (including the adjustment to fair value at inception date) in Other comprehensive income ("OCI").

As the contractual maturity of the loan is in 2026, it is included in the non-current line item Investments of the condensed consolidated balance sheets. The change in fair value of this investment in debt securities of \$880 for the three months ended March 31, 2025 (Successor) is included as Unrealized loss on available for sale debt securities - related party in the condensed consolidated statements of operations and comprehensive income (loss).

Discounts on debt are amortized over the contractual life of the related debt instrument using the effective interest method (unless otherwise specified below) and are included in Interest expense, net in the condensed consolidated statements of operations and comprehensive income (loss).

Series 1 Promissory Notes

In 2018, the Company authorized the issuance and sale of unsecured promissory notes to investors up to \$35,000. From 2018 to 2021, the Company issued promissory notes with a total principal amount of \$4,936. The notes require monthly interest payments, have an original maturity period of 36-48 months, and bear interest at 9%-12% per annum. The notes contain two term extension options, at the Company's election, which can extend the notes' maturity period to 60 months in total. If the Company elects its first term extension option, the note will bear interest at 12% for months 36 through 48. If the Company elects its second term extension option, the notes will bear interest at 15% for months 48 through 60.

Extensions on Series 1 promissory notes were as follow:

		Successor	Predecessor

Principal amount of 1st extension promissory notes	12%	\$ —	\$ 122

Interest expense on Series 1 promissory notes was as follows:

Interest attributable to contractual interest	\$ 32	\$ 55

Related Party Notes

The Company entered into unsecured promissory notes with two related parties, the first on August 20, 2024, for a principal amount of \$10,000, and the second on August 22, 2024, for a principal amount of \$2,000. The Company entered into amended and restated agreements to amend the terms of these unsecured promissory notes on October 1, 2024. As per the original agreements, the note with the first party contained a loan fee of \$1,000 which was payable with the repayment of the principal amount of the note and the note with the second party contained interest at the rate of 11.50% per annum. These notes were subsequently amended on October 1, 2024.

Innventure, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited) (in thousands, except share or per share data)

As per the amended note with the first party, the maturity date was extended to the earlier of (i) January 31, 2025 and (ii) the first business day following the date on which the Company has sufficient capital to be able to repay all amounts outstanding under the note and otherwise meet its expected working capital needs as determined by the Company in its reasonable discretion. The loan fee of \$1,000, required under the original agreement, became due on or around the amendment date and interest will accrue at the rate of 15.99% per annum until paid. The amendment was accounted for as a troubled debt restructuring as the Company was provided a concession through a decrease in the effective interest rate. However, no gain or loss was recognized as a result.

As per the amended note with the second party, the maturity date was extended to January 31, 2025 and the interest rate was increased to 13.50% per annum. Additionally, \$1,000 of the principal amount became due on or around the amendment date.

Interest expense on the related party notes was as follows:

	Successor	Predecessor
	Three months ended March 31, 2025	Three months ended March 31, 2024
Total interest expense	\$ 515	\$ —

In addition to the related party notes above, the Company also has a related party note for \$1,000 through an unsecured promissory note with an additional related party dated May 2, 2024. As per the terms of the executed agreement, the principal amount became due on December 21, 2024 and interest will accrue at the rate of 8.00% per annum. Upon maturity, the Company is required to repay the outstanding principal amount of \$1,000 and a loan fee equal to approximately \$63.

On March 20, 2025, in connection with the issuance of Series C Preferred Stock (as defined below), the Company extinguished the outstanding amount of related party notes. The Company recognized a loss of \$3,538 in Loss on extinguishment of related party debt on the condensed consolidated statements of operations and comprehensive income (loss) for the three months ended March 31, 2025 (Successor).

WTI Facility

On October 22, 2024, the Company entered into a term loan with WTI Fund X, Inc. and WTI Fund XI, Inc., (collectively, “WTI Lenders”). The terms of the loan provides for a term loan facility in the aggregate principal amount of up to \$50,000 (the “WTI Facility”). The total aggregate principal was available in three separate tranches subject to the Company meeting certain conditions. The Company received \$20,000 (the “First Tranche”) on November 15, 2024. The First Tranche, principal and interest, shall be repaid over a period of 30 months in equal, monthly installments, commencing after an initial 12-month period of interest-only monthly payments, resulting in a total term of 42 months. The interest rate on the outstanding principal amounts under the WTI Facility for the three months ended March 31, 2025 (Successor) was 13.50%.

Borrowings under the WTI Facility will accrue interest at a rate per annum equal to the greater of (i) the “prime rate” of interest, as published by The Wall Street Journal on the date that the WTI Lenders prepare the promissory notes for the borrowings under such tranche, plus 5% and (ii) 13.50% and will amortize, after an interest-only period of twelve months in the case of the First Tranche in equal monthly installments over a period of thirty months. Obligations are secured by a lien on the majority of the assets of Innventure LLC and Innventure, Inc.

In connection with the WTI Facility, the Company issued WTI Warrants to the WTI Lenders (as further defined and described in Note 10. Warrants). The Company accounted for each of the WTI Warrants as detachable warrants at their fair value. The fair value of the WTI Warrants was recorded as a liability and as a discount to the WTI Facility on the condensed consolidated balance sheets. The Company is amortizing the discount over the term of the WTI Facility using the straight-line method.

On March 25, 2025, the Company entered into a securities purchase agreement related to the issuance and sale of convertible debentures (“Convertible Debentures”) with an aggregate principal amount of up to \$30,000. These Convertible Debentures will be convertible into shares of the Company’s common stock, \$0.0001 par value, (“Common Stock”) (as converted, the “Conversion Shares”). The Company will issue the aggregate principal amount of Convertible Debentures in two tranches tied to separate reporting and filing requirements. As of March 31, 2025, the Company had not yet met the required reporting and filing requirements and therefore had not issued these Convertible Debentures. See Note 18. Impairment	(233,213)

In addition to annual impairment testing of goodwill, which is performed in the fourth quarter of each fiscal year, the Company continuously monitors for events and circumstances that could negatively impact the key assumptions used in determining fair value and therefore would require interim impairment testing, including long-term revenue growth projections, profitability, discount rates, volatility in the Company's market capitalization and general industry, market and macroeconomic conditions. During the three months ended March 31, 2025 (Successor), the Company recorded a \$233,213 non-deductible, non-cash goodwill impairment charge within the condensed consolidated statements of operations and comprehensive income (loss) due to sustained decreases in the Company's publicly quoted share price and market capitalization, which were, at least in part, sensitive to the general downward volatility experienced in the stock market during late February and March.

The Company's March 31, 2025 goodwill impairment testing was performed using the income approach via a discounted cash flow model. The income approach estimates fair value by converting future cash flows to a current amount on the measurement date after taking into consideration marketplace conditions. Assumptions including discount rate and estimated future cash flows had a significant impact to the estimated fair value of the reporting unit.

In the event there are further adverse changes in the Company's projected cash flows or further changes in key assumptions, including but not limited to an increase in the discount rate and further decline in the Company's stock price, the Company may be required to record additional non-cash impairment charges to goodwill. Such non-cash charges could have a material adverse effect on the Company's condensed consolidated statements of operations and comprehensive income (loss) and condensed consolidated balance sheets in the reporting period of the charge.

These SARs entitle participants to cash equal to the value of the appreciation in Accelsius' stock price over the base price established of \$12.175. These cash-settled SARs are liability classified and are revalued at each reporting period. The SARs were valued using the Black-Scholes option-pricing model based on an expected volatility of 70%, an expected term of approximately 1.75 years, and risk-free rate of return of 4%. The Company recognized a decrease in compensation expense in the amount of \$442 in relation to the change in fair value of the cash-settled SARs for the three months ended March 31, 2025 (Successor).

For interim tax reporting, the Company estimated one single effective tax rate for tax jurisdictions not subject to a valuation allowance, which is applied to the year-to-date pre-tax book loss. Tax effects of significant unusual or infrequently occurring items are excluded from the estimated annual effective tax rate calculation and recognized in the interim period in which they occur. The effective tax rate for the three months ended March 31, 2025 (Successor) was a benefit of 0.55% driven primarily by the impact of the goodwill impairment, which is not deductible for tax purposes.

Note 14. Net Loss Per Share

The Company follows the two-class method when computing net loss per common share when shares are issued that meet the definition of participating securities. The two-class method requires income available to common shareholders for the period to be allocated between common shares and participating securities based upon their respective rights to receive dividends as if all income for the period had been distributed. The two-class method also requires losses for the period to be allocated between common shares and participating securities based on their respective rights if the participating security contractually participates in losses. As holders of Series B Preferred Stock, Series C Preferred Stock and WTI Warrants, which are determined to be participating securities, do not have a contractual obligation to fund losses, undistributed net losses are not allocated to them for purposes of the loss per share calculation.

Innventure, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited) (in thousands, except share or per share data)

Given the historical structure of the Predecessor, the Company determined that the calculation of earnings per membership unit results in values that are not a valuable metric to users of these consolidated financial statements. Therefore, earnings per share ("EPS") information is omitted for the Predecessor periods.

Presented in the table below is a reconciliation of the numerator and denominator for the EPS calculations for the three months ended March 31, 2025 (Successor):

	Successor
	Three months ended
	March 31, 2025
Numerator:	
Net loss attributable to Innventure, Inc., shareholders	\$ (142,997)
Less: Cumulative earnings to participating securities	259
Undistributed loss for participating securities	(143,256)
Less: Undistributed loss attributable to participating securities	—
Net Loss attributable to common shareholders, basic and diluted	\$ (143,256)
Denominator:	
Weighted average number of units outstanding, basic and diluted	46,253
Net loss per share attributable to common shareholders, basic and diluted	\$ (3.10)

Basic and diluted net loss per share was the same for each period presented as the inclusion of all potential Common Stock outstanding would have been anti-dilutive.

The following table presents the potential common stock outstanding that was excluded from the computation of diluted net loss per share of Common Stock for the periods presented because including them would have been antidilutive:

Refer to Item 1. Business of the Form 10-K for a detailed discussion of our business activities.

Segments

Based on the allocation of resources and assessment of financial performance by our Chief Executive Officer (who has been determined to be our Chief Operating Decision Maker), we have identified one reportable segment: Technology. The Company’s remaining operations are not reportable segments and are classified as “Other.” “Other” primarily includes the Company’s remaining operations consisting of Innventure’s original platform business, service activities, Refinity and equity method investment activities.

The Business Combination

On October 24, 2023, Learn CW and Innventure LLC entered into a Business Combination Agreement with Holdco, LCW Merger Sub and Innventure Merger Sub. On September 30, 2024, the stockholders of Learn CW approved the Business Combination, and the Business Combination closed on the Closing Date. The Business Combination has been accounted for using the acquisition method of accounting. The Company determined the accounting acquirer to be Holdco. Accordingly, the Company recorded assets acquired, liabilities assumed and non-controlling interest at their acquisition date fair values and recognized goodwill.

As a consequence of the Business Combination, Innventure, Inc. is the successor to an SEC-registered and Nasdaq-listed company which will require Innventure to hire additional personnel and implement procedures and processes to address public company regulatory requirements and customary practices. Innventure is incurring additional annual expenses as a public company for, among other things, directors’ and officers’ liability insurance, director fees and additional internal and external accounting and legal and administrative resources, including increased audit and legal fees.

Innventure’s future results of consolidated operations and financial position may not be comparable to historical results as a result of the Business Combination.

Revenue

Revenue was \$224 for the three months ended March 31, 2025 (Successor) and \$224 for the three months ended March 31, 2024 (Predecessor), showing no change period over period. Revenue was consistent as it was substantially comprised of predetermined management fee income period over period.

Cost of sales

Cost of sales was \$184 for the three months ended March 31, 2025 (Successor) and nil for the three months ended March 31, 2024 (Predecessor), an increase of \$184. The increase relates primarily to inventory write-offs.

General and administrative

General and administrative expense was \$19,676 for the three months ended March 31, 2025 (Successor) and \$7,904 for the three months ended March 31, 2024 (Predecessor), an increase of \$11,772, or 148.9%. The increase in expenditure was primarily attributed to an increase in professional services, legal fees and consulting fees of \$2,000, amortization expense resulting from the intangibles acquired in the Business Combination of \$2,240, increased equity based compensation of \$5,445. The remaining increase in expenditure was due to increased employee costs.

The increase was primarily due to increased compensation costs as a result of increased headcount across the business and increases in advertising and marketing-related events and expenses associated with the commercialization phase of the Technology segment.

Research and development

Research and Development ("R&D") expense was \$6,253 for the three months ended March 31, 2025 (Successor) and \$1,669 for the three months ended March 31, 2024 (Predecessor), an increase of \$4,584, or 274.7%. Interest expense, net

Interest expense, net was \$1,538 for the three months ended March 31, 2025 (Successor) and \$405 for the three months ended March 31, 2024 (Predecessor), an increase of \$1,133, or 279.8%. The increase was primarily due to an increase in interest expense for the WTI Facility and related party notes, partially offset by convertible notes that were converted during the three months ended March 31, 2024 (Predecessor).

Net gain on investments

Net gain on investments was nil for the three months ended March 31, 2025 (Successor) and \$5,189 for the three months ended March 31, 2024 (Predecessor), a decrease of \$5,189, over the comparable period for the three months ended March 31, 2024 (Predecessor). The decrease was due to the de-consolidation of certain mezzanine equity as a result of the Business Combination and the gain on investment in PCT owned stock via Class PCTA units during the three months ended March 31, 2024 (Predecessor).

Net loss on investments - due to related parties

Net loss on investments – due to related parties was nil for the three months ended March 31, 2025 (Successor) and \$186 for the three months ended March 31, 2024 (Predecessor), a decrease of \$186. The loss during the three months ended March 31, 2025 (Successor) represented allocated losses from the ESG Fund and AeroFlexx. Loss on extinguishment of related party debt was \$3,538 for the three months ended March 31, 2025 (Successor) and nil for the three months ended March 31, 2024 (Predecessor), an increase of \$3,538. This was due to the automatic conversion of promissory notes during the three months ended March 31, 2024 (Predecessor) into equity instruments which was treated as an extinguishment thereby generating a loss. There was no equivalent transaction for the three months ended March 31, 2025 (Successor).

Non-GAAP Financial Measures

We use certain financial measures that are not calculated in accordance with generally accepted accounting principles in the U.S. (GAAP) to supplement our consolidated financial statements. These non-GAAP financial measures provide additional information to investors to facilitate comparisons of past and present operating results, identify trends in our underlying operating performance, and offer greater transparency on how we evaluate our business activities. These measures are integral to our processes for budgeting, managing operations, making strategic decisions, and evaluating our performance.

Our primary non-GAAP financial measures are EBITDA and Adjusted EBITDA. We define EBITDA as net income before interest, income taxes, and depreciation and amortization. Adjusted EBITDA is defined as EBITDA further adjusted to exclude certain non-cash items, non-recurring expenses, and other items that are not indicative of our core operating activities. These may include stock-based compensation, acquisition costs, and other financial items. We believe Adjusted EBITDA is valuable for investors and analysts as it provides additional insight into our operational performance, excluding the impacts of certain financing, investing, and other non-operational activities. This measure helps in comparing our current operating results with prior periods and with those of other companies in our industry. It is also used internally for allocating resources efficiently, assessing the economic outcomes of acquisitions and strategic decisions, and evaluating the performance of our management team.

There are limitations to Adjusted EBITDA, including its exclusion of cash expenditures, future requirements for capital expenditures and contractual commitments, and changes in or cash requirements for working capital needs. Adjusted EBITDA also omits significant interest expenses and related cash requirements for interest and payments. While depreciation and amortization are non-cash charges, the associated assets will often need to be replaced in the future, and Adjusted EBITDA does not reflect the cash required for such replacements. Additionally, Adjusted EBITDA does not account for income or other taxes or necessary cash tax payments.

Investors should use caution when comparing our non-GAAP measure to similar metrics used by other companies, as definitions can vary. Adjusted EBITDA should not be considered in isolation or as a substitute for GAAP financial measures. We provide Adjusted EBITDA as supplemental information to enhance the overall understanding of our financial performance.

The following table provides a reconciliation from Net Loss to EBITDA and Adjusted EBITDA for the specified periods:

(4) Stock based compensation – For the three months ended March 31, 2025 (Successor), stock based compensation primarily consisted of awards in the 2024 Equity and Incentive Plan entered into on October 2, 2024 subsequent to the Business Combination. These awards consisted of Stock Options, Restricted Stock Units, and Stock Appreciation Rights. Further, a portion of this expense was related to share based payment employee incentive plans in existence at Innventure LLC and other subsidiaries. For the three months ended March 31, 2024 (Predecessor), stock based compensation was comprised wholly of share-based payment employee incentive plans in existence at Innventure LLC and other subsidiaries.

(5) Goodwill impairment - For the three months ended March 31, 2025 (Successor), the Company recognized a goodwill impairment charge due to sustained decreases in the Company's publicly quoted share price and market capitalization, which were, at least in part, sensitive to the general downward volatility experienced in the stock market during late February and March. There was no similar goodwill impairment charge for the three months ended March 31, 2024 (Predecessor).

(6) Loss on extinguishment of related party debt - For the three months ended March 31, 2025 (Successor), the Company extinguished certain related party debts by issuing Series C Preferred Stock. There was no loss on extinguishment of related party debt for the three months ended March 31, 2024 (Predecessor).

In presenting Adjusted EBITDA, we aim to provide investors with an additional tool for assessing the operational performance of our business. It serves as a useful complement to our GAAP results, offering a more comprehensive understanding of our financial health and operational efficiencies.

Liquidity and Capital Resources (in thousands, except as otherwise noted)

As discussed in more detail below, management has concluded that there is substantial doubt about our ability to continue as a going concern within one year after the date that these consolidated financial statements included in Item 1. of this Form 10-Q were issued. The condensed consolidated financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include any adjustments that might result from the outcome of this uncertainty.

Sources of Liquidity

In assessing liquidity, we monitor and analyze cash on hand and operating expenditure commitments. Our liquidity needs are to meet working capital requirements and operating expense obligations. To date we have financed our operations primarily through cash flows from investing and financing activities.

The following is a summary of the components of our liquidity as of March 31, 2025 and December 31, 2024:

	March 31, 2025	December 31, 2024
Cash and cash equivalents	\$ 1,375	\$ 11,119
Working capital	(37,039)	(45,061)

On March 25, 2025, the Company entered into the Securities Purchase Agreement with Yorkville for the issuance and sale of the Convertible Debentures in two tranches with an aggregate principal amount of up to \$30,000. On April 14, 2025, the Company issued the first tranche of Convertible Debentures with an aggregate principal amount of \$20,000 and received \$18,000 of gross proceeds. On May 15, 2025, the Company issued the second tranche of Convertible Debentures to Yorkville with an aggregate principal amount of \$10,000 and received \$9,000 of gross proceeds.

Our future liquidity requirements will depend on many factors, including funding required by us and our Operating Companies to (i) support the growth of the business and the current business strategy; (ii) fund working capital, capital expenditures and general corporate expenditures; and (iii) support other business opportunities and expenditures. Based on current projections, we estimate that Innventure and its Operating Companies will require, in addition to cash on hand, at least \$50,000 to meet our collective liquidity requirements for the next 12 months and, to grow the Operating Companies in accordance with our current business plan, the Operating Companies will require at least an additional \$25,000.

We expect to satisfy our liquidity requirements through cash on hand, cash generated from the operations of our Operating Companies, and the SEPA with Yorkville (maximum remaining availability of approximately \$72,000 as of March 31, 2025), as well as proceeds from additional financings completed by us or our Operating Companies. During the three months ended March 31, 2025 (Successor), the Technology segment raised approximately \$5,150 of additional equity financing, in comparison to approximately \$3,855 during the three months ended March 31, 2024 (Predecessor).

Bridge Financing

On August 20, 2024, the Company entered into unsecured promissory notes with two related parties for principal amounts of \$10,000 and \$2,000, respectively. The Company entered into amended and restated agreements to amend the terms of these unsecured promissory notes on October 1, 2024. As per the original agreements, the note with the first party contained a loan fee of \$1,000 which was payable with the repayment of the principal amount of the note and the note with the second party contained interest at the rate of 11.50% per annum. The principal amounts, loan fees and accrued interest were repayable at the earlier of October 15, 2024 and the first business day following the date of consummation of the Business Combination.

As per the amended note with the first party, the maturity date was extended to the earlier of (i) January 31, 2025 and (ii) the first business day following the date on which the Company has sufficient capital to be able to repay all amounts outstanding under the note and otherwise meet its expected working capital needs as determined by the Company in its reasonable discretion. The loan fee of \$1,000, required under the original agreement, became due on or around the amendment date and interest will accrue at the rate of 15.99% per annum until paid. The amendment was accounted for as a troubled debt restructuring as the Company was provided a concession through a decrease in the effective interest rate. However, no gain or loss was recognized as a result.

As per the amended note with the second party, the maturity date was extended to January 31, 2025 and the interest rate was increased to 13.50% per annum. Additionally, \$1,000 of the principal amount became due on or around the amendment date.

On March 20, 2025, the Company converted and repaid the aggregate outstanding amount of these unsecured promissory notes with the two related parties described above and issued shares of the Company's Series C Preferred Stock and paid cash to settle these unsecured promissory notes and all outstanding obligations with these parties. See Note 5. Borrowings for more information.

Series B Preferred Stock

As of March 31, 2025, 3,000,000 shares of the authorized preferred stock are designated as Series B Preferred Stock. Series B Preferred Stock is entitled to an 8% annual rate dividend. On March 19, 2025, the Company distributed 21,808 shares of Series B Preferred Stock to represent \$218 in cumulative dividends for Series B Preferred Stock, covering the period from the initial issue date, as defined in the Certificate of Designation, to December 31, 2024, as a payment in kind at the specified rate. See further discussion of the Series B Preferred Stock in Note 11. Mezzanine and Stockholders' Equity within the notes to the consolidated financial statements.

Series C Preferred Stock

As of March 31, 2025, 5,000,000 shares of preferred stock are designated as Series C Preferred Stock. On March 24, 2025, Innventure issued 2,885,848 shares of Series C Preferred Stock at the original issue price for a total amount of \$28,858,480. The consideration received by the Company was in the form of cash, services rendered and the cancellation of related party debt. See further discussion of the Series C Preferred Stock in Note 11. Mezzanine and Stockholders' Equity within the notes to the consolidated financial statements.

Standby Equity Purchase Agreement

In October 2023, we entered into the SEPA with Yorkville. This agreement became effective concurrently with the Business Combination.

Pursuant to the SEPA, the Company shall have the right, but not the obligation, to sell to Yorkville up to \$75,000 of Common Stock, par value \$0.0001 per share, at the Company's request any time during the commitment period commencing on the Closing and continuing for a term of 3 years ("Purchased Put Option").

The SEPA will automatically terminate on the earlier to occur of (i) November 01, 2027 and (ii) the date on which Yorkville shall have made payment of advances pursuant to the SEPA for Common Stock equal to the commitment amount of \$75,000.

For the three months ended March 31, 2025 (Successor), the Company sold 73,993 shares of Common Stock under the SEPA, raising \$931 which is classified within Issuance of common shares, net of issuance costs in the consolidated statements of changes in mezzanine and stockholders' equity (deficit).

Convertible Debentures

On March 25, 2025, the Company entered into the Securities Purchase Agreement for the issuance and sale of the Convertible Debentures with an aggregate principal amount of up to \$30,000. These Convertible Debentures will be convertible into shares of Common Stock under certain circumstances. The Company will issue the aggregate principal amount of Convertible Debentures in two tranches tied to separate reporting and filing requirements. As of March 31, 2025, the Company had not yet met the required reporting and filing requirements and therefore had not issued these Convertible Debentures. On April 14, 2025 and May 15, 2025, the Company issued the first and second tranches of Convertible Debentures with aggregate principal amounts of \$20,000 and \$10,000, respectively, and gross proceeds of \$18,000 and \$9,000, respectively. In connection to the Convertible Debentures, on April 14, 2025 the Company issued warrants to purchase up to 300,000 shares of Common Stock to the WTI Lenders. See further discussion in Note 5. Borrowings and Note 18. Subsequent Events within the notes to the consolidated financial statements.

Going Concern

We have experienced recurring losses from operations and negative cash flows from operating activities. In addition, we continue to have an ongoing need to raise significant additional cash from outside sources to sustain our operations and fund our growth plans.

In connection with our assessment of going concern considerations in accordance with FASB's ASU 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that these conditions raise substantial doubt about our ability to continue as a going concern within one year after the date of the condensed consolidated financial statements included in Item 1. of this Form 10-Q. If we

are unable to obtain adequate capital from public or private equity or debt financing (including the SEPA), or otherwise generate sufficient revenues from our Operating Companies to support our cost structure within the normal operating cycle of a twelve (12) month period, we may have to implement cost reduction measures or adjust the timing or scope of certain operations at Innventure or certain Innventure Companies, in part or in full, to help manage liquidity. If we raise additional funds through the issuance of additional debt or equity securities, it could result in substantial dilution to our existing stockholders and increased fixed payment obligations, and these securities may have rights senior to those of our Common Stock. See “Item 1A. Risk Factors – Risks Related to Innventure’s Business – There is uncertainty regarding Innventure’s ability to maintain liquidity sufficient to operate its business effectively, which raises substantial doubt about its ability to continue as a going concern.” in our 2024 Annual Report.

We can make no assurances that required financings will be available for the amounts needed, or on terms commercially acceptable to us, if at all. If subsequent capital raises or revenues from operations at the Innventure Companies are insufficient to bridge financial and liquidity shortfalls (or both), there would likely be a material adverse effect on our business and financial condition that would materially adversely affect our ability to continue as a going concern.

The condensed consolidated financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include any adjustments that might result from the outcome of this uncertainty.

Critical Accounting Policies and Use of Estimates

As described in Note 2. Accounting Policies to our unaudited condensed consolidated financial statements included in this Form 10-Q, there have been no material changes to our critical accounting policies and estimates as compared to the critical accounting policies and estimates disclosed in the 2024 Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company, as defined in Rule 12b-2 under the Exchange Act, for this reporting period and are not required to provide the information required under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) as of the end of the period covered by this report. Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports that are filed or submitted under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures were not effective at a reasonable level of assurance as of March 31, 2025, because of the material weaknesses in our internal control over financial reporting.

The material weaknesses identified were as follows:

- Innventure’s system of internal controls over financial reporting failed to prevent or detect material adjustments necessary to appropriately present certain complex and significant unusual transactions in accordance with GAAP due primarily to insufficient staffing of personnel possessing the appropriate

accounting and financial reporting knowledge and experience to review and monitor third-party consultants;

- Innventure's system of internal controls over financial reporting did not include necessary information technology general controls including related to (i) periodic user access reviews, (ii) user provisioning and de-provisioning, (iii) restriction of privileged access and (iv) authentication settings;
- Innventure did not maintain effectively designed and implemented controls over the costing and existence of inventory as of September 30, 2024, including controls over the calculation of such inventory on the weighted average basis;
- Innventure made an error in its assessment of the accounting acquirer in conjunction with the transaction, which resulted in an incorrect conclusion that the transaction was an asset acquisition. Additionally, management's control over the forecast prepared for Accelsius was not effective, resulting in an adjusted forecast for purposes of the purchase accounting;
- Innventure did not maintain evidence of control procedures over the periodic reconciliation of significant accounts. This included lack of segregation of duties and lack of review.

We have developed a remediation plan for the material weaknesses that have been identified, including enhancing our complement of resources with accounting and internal control knowledge through additional hiring and/or training to implement and perform additional controls over: (a) the initial and subsequent accounting for complex and significant unusual transactions, (b) general IT controls, (c) segregation of duties and (d) review of accounting treatment related to equity of publicly traded securities. We are currently implementing this plan. When fully implemented and operating effectively, such enhancements are expected to remediate the material weaknesses described above. However, we cannot provide any assurance that these remediation efforts will be successful or that our internal control over financial reporting will be effective as a result of these efforts.

Changes in Internal Control over Financial Reporting

Management is in the process of establishing and is refining its internal procedures and controls to address the material weaknesses previously disclosed.

Other than as described above, during the most recent fiscal quarter, there have been no changes in the Company's internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

Item 1.01 Entry into a Material Definitive Agreement.

Voting Agreement

As previously disclosed in the Current Reports on Form 8-K filed by Innventure, Inc., a Delaware corporation (the “Company”) with the U.S. Securities and Exchange Commission (the “SEC”) on March 26, 2025 and April 14, 2025, the Company entered into a securities purchase agreement (the “Purchase Agreement”) with YA II PN, Ltd. (“Yorkville”), for the issuance and sale by the Company of convertible debentures (the “Convertible Debentures”) issuable in an aggregate principal amount of up to \$30,000,000, which Convertible Debentures will be convertible into shares of the Company’s common stock, par value \$0.0001 per share (the “Common Stock,” as converted, the “Conversion Shares”).

On April 14, 2025 (the “First Closing Date”), the Company issued a Convertible Debenture to Yorkville with a principal amount of \$20,000,000. Pursuant to the Purchase Agreement, Yorkville will purchase, and the Company will issue, an additional \$10,000,000 in aggregate principal amount of Convertible Debentures on the first business day after both (i) the registration statement filed with the SEC registering the resale of the Conversion Shares is declared effective by the SEC, which occurred on April 23, 2025, and (ii) the Company has received stockholder approval either through (a) affirmative votes at the Company’s annual meeting or (b) irrevocable proxies to do the same, which occurred on May 13, 2025 as further described below, by a majority of the voting power of the Company (“Stockholder Approval”) of the issuance of Conversion Shares and shares issuable pursuant to the Company’s Standby Equity Purchase Agreement, dated October 24, 2023, with Yorkville in excess of the Exchange Cap (as defined in the Purchase Agreement).

By May 13, 2025, in connection with the Stockholder Approval, certain stockholders of the Company (each a “Voting Agreement Party”) constituting a majority of the voting power of the Company, each entered into an irrevocable Voting Agreement (“Voting Agreement”) pursuant to which each Voting Agreement Party agreed to vote all shares of voting stock over which the Voting Agreement Party has voting control in favor of both Proposals 3 and 4, each as described in the Company’s Definitive Proxy Statement on Schedule 14A filed with the SEC on May 9, 2025 (the “2025 Proxy Statement”) in connection with the Company’s Annual Meeting of Stockholders to be held virtually at 9:00 a.m., ET, on June 25, 2025 (the “2025 Annual Meeting”). Each Voting Agreement Party also agreed to vote all shares of voting stock over which the Voting Agreement Party has voting control in favor of the equivalent of Proposals 3 and 4, each as described in the Company’s 2025 Proxy Statement, at any other meeting of stockholders of the Company subsequent to the 2025 Annual Meeting if such proposals are required to be resubmitted to the Company’s stockholders.

The foregoing description of the terms of the Voting Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of such document, a form of which is filed herewith as Exhibit 10.1 and is incorporated herein by reference.

Issuance of Second Convertible Debenture

On May 15, 2025 (the “Second Closing Date”), the Company issued a Convertible Debenture to Yorkville with a principal amount of \$10,000,000 (the “Second Convertible Debenture”). The Second Convertible Debenture will not bear interest unless an event of default occurs and remains uncured, upon which the Second Convertible Debenture will bear interest at an annual rate of 18.0%. The Second Convertible Debenture will mature on July 14, 2026 (the “Maturity Date”). The Second Convertible Debenture resulted in gross proceeds to the Company of approximately \$9,000,000, representing an original issue discount of 10%. With respect to the Second Convertible Debenture, the Company will be required to make monthly cash payments of principal in amounts between \$545,455 and \$1,545,450 (as per the schedule set forth in the Second Convertible Debenture) plus a payment premium of 5% and all accrued and unpaid interest as of the date of such installment. Such payments will commence on June 14, 2025 and will continue on a monthly basis thereafter until the Second Convertible Debenture is repaid in full.

The Second Convertible Debenture is convertible at the option of the holder into Common Stock equal to the applicable Conversion Amount (as defined below) divided by the Conversion Price (as defined below). The conversion price for the Second Convertible Debenture will initially be \$10.00, and will be adjusted on the six-month anniversary of the First Closing Date (the “First Reset Date”) and the nine-month anniversary of the First

Closing Date (the “Second Reset Date” and collectively with the First Reset Date, a “Reset Date”) to equal the lower of the then applicable conversion price or the average volume weighted average price of the Common Stock for the 10 trading days immediately prior to the applicable Reset Date. Any portion of the Second Convertible Debenture may be converted at any time and from time to time, subject to the Exchange Cap (as defined below). The Conversion Amount with respect to any requested conversion will equal the principal amount requested to be converted plus all accrued and unpaid interest on the Second Convertible Debenture as of such conversion (the “Conversion Amount”). In addition, no conversion will be permitted to the extent that, after giving effect to such conversion, the holder together with the certain related parties would beneficially own in excess of 4.99% of the Common Stock outstanding immediately after giving effect to such conversion, subject to certain adjustments.

The Company shall not issue any Common Stock upon conversion of the Convertible Debentures held by Yorkville if the issuance of such Common Stock underlying the Convertible Debentures would exceed the aggregate number of Common Stock that the Company may issue upon conversion of the Convertible Debentures in compliance with the Company’s obligations under the rules or regulations of Nasdaq Stock Market (the “Exchange Cap”). The Exchange Cap will not apply under certain circumstances, including if the Company obtains the approval of its stockholders as required by the applicable rules of the Nasdaq Stock Market for issuances of Common Stock in excess of such amount or if the Company obtains a written opinion from outside counsel to the Company that such stockholder approval is not required.

The Second Convertible Debenture provides the Company, subject to certain conditions, with an optional redemption right pursuant to which the Company, upon 10 trading days’ prior written notice to Yorkville (the “Redemption Notice”), may redeem in cash, in whole or in part, all amounts outstanding under the Second Convertible Debenture prior to the Maturity Date. The redemption amount shall be equal to the outstanding principal balance being redeemed by the Company, plus the redemption premium of 5% of the principal amount being redeemed if completed on or before the twelve-month anniversary of the issuance date, or 10% of the principal amount being redeemed if completed after the twelve-month anniversary of the issuance date, plus all accrued and unpaid interest as of the date of such redemption.

Item 2.02 Results of Operations and Financial Condition.

On May 15, 2025, the Company issued a press release, attached hereto as Exhibit 99.1 and incorporated herein by reference, announcing the Company’s financial results for the first quarter ended March 31, 2025, and certain other information.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The information contained in Item 1.01 is incorporated herein by reference.

Item 3.02 Unregistered Sales of Equity Securities.

The information contained in Item 1.01 is incorporated herein by reference. The issuance of the Second Convertible Debenture was, and the Conversion Shares issuable upon conversion of the Second Convertible Debenture will be, exempt from registration pursuant to Section 4(a)(2) of the Securities Act. Yorkville represented to the Company that it is an “accredited investor” as defined in Rule 501 of the Securities Act and that each of the Second Convertible Debenture and the Conversion Shares will be acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof.

(1) Interest expense, net – For the combined twelve months ended December 31, 2024, interest expense, net includes interest incurred on our various borrowing facilities and the amortization of debt issuance costs. Additional debt issuance cost associated with a loan commitment fee asset in the amount of \$10,041 was written off in combined twelve months ended December 31, 2024 and has also been included in this adjustment. This amount is representative of the asset associated with the second and third tranches of the WTI facility. When it became known that we would not be able to draw on these subsequent tranches based on certain metrics contained within the WTI Facility agreement, we immediately wrote this asset off. For the Predecessor year ended December 31, 2023, this balance is comprised entirely of interest incurred on our various borrowing facilities.

(2) Transaction and other related costs – For the combined twelve months ended December 31, 2024 and for the Predecessor year ended December 31, 2023 this is comprised entirely of consulting, legal, and other professional fees related to the Business Combination.

(3) Change in fair value of financial liabilities – For the combined twelve months ended December 31, 2024 the change in fair value of financial liabilities primarily consists of the change in fair value of the warrant liability, change in fair value of the earnout liability, and the change in the fair value of the embedded derivative associated with convertible notes prior to extinguishment. For the Predecessor year ended December 31, 2023, this is comprised entirely of the change in fair value of the embedded derivative associated with the convertible notes.

(4) Stock based compensation – For the combined twelve months ended December 31, 2024 stock based compensation primarily consisted of awards in the 2024 Equity and Incentive Compensation Plan entered into on October 2, 2024 subsequent to the Business Combination. These awards consisted of Stock Options, RSUs, and Stock Appreciation Rights. Further, a portion of this expense was related to share based payment employee incentive plans in existence at Innventure LLC and other subsidiaries. For the Predecessor year ended December 31, 2023, stock based compensation was comprised wholly of share based payment employee incentive plans in existence at Innventure LLC and other subsidiaries.
